Shoreline continues through to warning strip
Rectangular-shaped bollard aligns with edge of crosswalk

Tactile warning strip

Each bollard has the name of the street and the address range in conventional text and in Braille.
Key Components

a) Unobstructed pedestrian path
b) Uninterrupted shoreline
c) High-contrast tactile strip
d) High-contrast bollards with Braille street names
e) Bollard alignments with crosswalks
f) Audible signals
g) Conveniently-located audible signal activator buttons
h) High-contrast, tactile crosswalk surfaces
Thank you!
